SUMMARY

Proficient **Frontend Developer** with 5 years of experience designing and developing responsive, user-centric web applications using React.js and TypeScript. Adept at translating business requirements into high-performance interfaces while collaborating effectively with cross-functional teams. Skilled in integrating backend APIs, optimizing state management with Redux Toolkit, and implementing efficient workflows for real-time data updates. Experienced in leveraging AI and Generative AI technologies, including OpenAI tools, to enhance application functionality and deliver intelligent user experiences. Passionate about using JavaScript, modern React frameworks, and CSS libraries to build scalable, maintainable solutions.

SKILLS

Languages & Libraries: JavaScript, TypeScript, HTML5, CSS3, Node Js, Express JS, Python, React, React Native, Vue.js, Next.js

State Management: Redux, Context API, Vuex, RTK (Redux Toolkit)

CSS Libraries: MUI, Tailwind CSS, Bootstrap, Chakra UI, Ant Design, SASS

Design: Figma, Adobe XD

Version Control: GitHub, GitLab, Bitbucket

AI / ML : Ollama, Piper TTS, Pose detection LLM, Open AI, Gen AI

EXPERIENCE

Senior Frontend Developer

Xische & Co (Dubai Municipality Project) - Remote

May 2025 - Present, Dubai

- Engineered dynamic user interfaces with React.js and TypeScript, ensuring seamless integration with backend APIs and improving user engagement.
- Refined application workflows by implementing robust state management using Redux Toolkit, enhancing the reliability of real-time data updates across complex modules.
- Utilized OpenAI APIs and Generative AI to streamline content creation and handle large datasets, improving application intelligence and user engagement.
- Transitioned outdated application interfaces to modular component libraries such as MUI and Ant Design, leveraging React and TypeScript to standardize deployment and streamline future enhancements.

Senior Frontend Developer

EarnFlex - Remote

March 2023 - May 2025, UK

- Lead the development of user-centric applications using React, React Native, JavaScript, Vue, and TypeScript, delivering clean, modular, and efficient code.
- Built cross-platform mobile applications with React Native, ensuring a seamless user experience on both iOS and Android devices.
- Improved workflow efficiency by standardizing state management practices with Redux and Vuex, streamlining collaboration with backend and QA teams.
- Integrated Piper TTS with Ollama to enable advanced text-to-speech capabilities within applications.
- Mentored junior developers through code reviews, knowledge-sharing sessions, and ongoing technical guidance.

Frontend Developer

Horizon Digital - Remote

March 2022 - February 2023, Australia

- Developed secure, high-performing web and mobile applications using React, React Native, Vue, JavaScript, Flutter, and TypeScript.
- Implemented responsive, accessible UI/UX designs, ensuring compatibility across multiple devices and browsers.
- Collaborated with design and backend teams to deliver feature-rich applications on schedule.
- Managed post-launch activities, including documentation, client training, and ongoing support.
- Leveraged OpenAI APIs to process and organize large datasets into structured documents.

React Developer

TechXperts - Onsite

February 2021 - March 2022, Islamabad

- Developed interactive, responsive applications using React, React Native, and TypeScript.
- Integrated Redux for state management, enabling efficient data flow and smooth user experiences.
- Optimized front-end performance, achieving improvements in load times and interactivity.
- Engaged directly with clients to provide updates, gather feedback, and ensure overall satisfaction.

EDUCATION

BS Software Engineering

International Islamic University • Islamabad • 2017 – 2021

CERTIFICATIONS

AI and Machine Learning Course

IBM • 2026

Python For Programmers

IBM • 2026
